Addendum to Our Brochure

The North Florida/South Georgia Veterans Health System recognizes that the SARS-CoV-2 virus and the resulting disease, COVID-19, has constrained all of us, especially trainees. We recognize that COVID-19 has disrupted training and training opportunities for you. Therefore, we have decided to be considered, students must demonstrate completion of at

least three years of graduate course work and a minimum of **520 contact hours** (combined assessment and intervention hours) and 5 completed integrated psychological assessments. This is a change is a lower hours requirement than what is listed in our brochure, which is 625 direct contact hours. Applicants must still be certified as ready for internship by their Director of Training. Completed internship applications are reviewed by the Psychology Selection Committee and must still be received no later than **November 1st** of the calendar year preceding the internship year.

Please let us know if you have any questions about this change.
